An efficient approach for figuring out a price is to send out a survey to your current customers. If these customers have already bought an ebook from you, ask for his or her opinion when it comes to price. Do that by making a gross sales page for the new guide, but don't embrace a price on that page. As an alternative, add plenty of hyperlinks to survey questions that ask pointed questions to aid you in assigning a value to your ebook.

One other strategy is to test out costs by creating a number of duplicate gross sales pages with completely different prices on each page. Be sure that your sales copy is exactly the identical on

each page, and contains your promoting-handle sentence. Then figure out for every web page the conversion ratio between guests to your web site and gross sales of your book. This will tell you what your optimum value is.

In the end, when you've written a e book that solves a problem or presents a brand new approach, your book will herald both visitors and profits.
